

CURRENCY NOTE PRESS, NASHIK

(A unit of Security Printing & Minting Corporation of India Limited)

(Wholly owned by Government of India)

Mini-Ratna Category-I CPSE

Advt. No. CNPN/HR/Rect./01/2026

RECRUITMENT OF VARIOUS POSTS

The Currency Note Press, Nashik (Maharashtra) is one of the units under the "Security Printing and Minting Corporation of India Limited" (SPMCIL), a Miniratna Category-I, a Central Public Sector Enterprise (CPSE), Wholly owned by Government of India, incorporated on 13th January, 2006 under the Companies Act, 1956 with the objective of designing and manufacturing of Currency Notes and Bank Notes etc.

SPMCIL is under the administrative control of Department of Economic Affairs, Ministry of Finance with its registered and corporate Office at 3rd floor, Tower-G, World Trade Centre, Nauroji Nagar, New Delhi-110 029. The operational units of the company are strategically located across the country having its four Mints at Mumbai, Kolkata, Hyderabad & Noida and four Currency/Security Printing Presses at Nashik, Dewas & Hyderabad besides a high quality paper manufacturing Mill at Narmadapuram.

Currency Note Press, Nashik (Maharashtra) being a nodal unit for undertaking a centralized recruitment for following 04 Security Presses of SPMCIL:

- i. **CURRENCY NOTE PRESS, NASHIK, MAHARASHTRA (CNPN):** This unit is engaged in manufacturing of high quality Bank Notes and Currency Notes for the Government of India.
- ii. **INDIA SECURITY PRESS, NASHIK, MAHARASHTRA (ISPN):** This unit is engaged in the production and printing of various security products for the Government of India as well as for State Governments such as Indian Passports, Visa allied Stickers, Non-Judicial Stamp Papers, Judicial Stamps, MICR Cheques, Excise Adhesive Labels, University Degree Certificates, Seed Certification Tags etc.
- iii. **BANK NOTE PRESS, DEWAS, MADHYA PRADESH (BNPD):** This unit is engaged in printing of high quality Bank Notes for the Government of India.
- iv. **SECURITY PRINTING PRESS, HYDERABAD, TELANGANA (SPPH):** This unit is engaged in printing and supply of security documents for the Government of India as well as for State Governments such as Postal Stationery items, Excise Adhesive Labels, Non-Judicial Stamp Papers, Court Fee Stamps, Indian Postal Orders and Saving Instruments etc.

With the above background Currency Note Press, Nashik (Maharashtra) being a nodal unit for centralized recruitment is inviting online applications from the Indian citizens and looking forward to recruit high-caliber & talented professionals for filling-up the vacancies for aforesaid 04 presses through the Company's official website at **<https://cnpnashik.spmcil.com>** under the page "Career". No other means/ mode of application will be accepted.

Applicants may apply, after carefully going through all the instructions given in this advertisement and should ensure that they **must fulfill all eligibility criteria** as on the last date of online registration as mentioned in the advertisement against the respective post. The unit wise details of vacancies for various posts are as under:

Note:

- **Applicants should wisely select the post along with the preference option of the unit in Online application form. After submitting of online application, no changes are allowed at any stage.**
- While applying online application, unit preference is available against each post. However, in case of selection, Unit is allocated based on the preference and merit of the candidates. Further seniority will be maintained as per the place of posting i.e. respective unit.
- The number of vacancies mentioned above is provisional and may increase/ decrease according to the actual requirement of the Company.
- Posts reserved for Persons with Benchmark Disabilities (PwBD) as per RPwD Act, 2016 and Ex-Servicemen will be adjusted by Horizontal Reservation (Hor. Res.) against the respective categories i.e. UR/EWS/SC/ST/OBC to which they belong.
- **Ex-Servicemen** – Only those candidates shall be treated as Ex-Servicemen who fulfills the revised definition as laid down in Govt. of India, Ministry of Home Affairs, Dept. of Personnel and Administrative Reforms notification No. 36034/5/85-Estt.(SCT), dated 27/10/1986 as amended from time to time.
- Persons with Benchmark Disability – Persons suffering from not less than 40% of relevant disability shall be eligible for the benefit of Reservation as permissible to the extent of Rules.
- Colour Blindness of candidate shall be disqualification for all Technical/ Control / Maintenance posts.
- 1st class means 1st class awarded by the University/ Institute irrespective of the percentage of marks. In case a University/Institute does not award any class or percentage then minimum 60% will be required to be considered for Eligibility in case where First Class is required. Further, wherever CGPA/OGPA/CPI or letter grade in a degree is awarded, equivalent percentage of marks should be indicated in the application as per norms adopted by University/Institute. Candidate is required to obtain a certificate to this effect from the University/Institute.
- The IDA Pay Scales indicated against the posts are in accordance with the Third Pay Revision Committee (3rd PRC) guidelines issued by the Department of Public Enterprises (DPE), Ministry of Finance, Govt. of India and shall be revised from time to time.

3. GUIDELINES FOR EWS (ECONOMICALLY WEAKER SECTIONS)-

- 10% of Vacancies are reserved for the EWS as per the instructions of Government of India issued vide DoPT OM No. 36039/1/2019-Estt (Res) dated 31st January, 2019.
- Persons who are not covered under the existing scheme of reservations to the Scheduled Castes, the Scheduled Tribes and the socially and Educationally Backward Classes and whose family has gross annual income below Rs. 8.00 lakh are to be identified as EWSs for the benefit of reservation. Family for this purpose will include the person who seeks benefit of reservation, his/her parents and siblings below the age of 18 years as also his/her spouse and children below the age of 18 years. The income shall include income from all sources i.e. salary, agriculture,

business, profession etc. and it will be income for the financial year prior to the year of application. Also persons whose family owns or possesses any of the following assets shall be excluded from being identified as EWSs, irrespective of the family income:

- 5 acres of Agricultural Land and above;
- Residential flat of 1000 sq. ft. and above;
- Residential plot of 100 sq. yards and above in notified municipalities;
- Residential plot of 200 sq. yards and above in areas other than the notified municipalities.
- The income and assets of the families as mentioned in Para 2 would be required to be certified by an officer not below the rank of Tehsildar in the States/UTs. The candidates shortlisted for document verification shall be required to bring the requisite certificate as specified by the Government of India at the time of appearing for the process of document verification.
- The reservation of EWS shall be governed as per the instructions issued by the Govt. of India in this regard from time to time.
- Format for declaration of EWS candidate as per Govt. of India.

4. (i) GUIDELINES FOR PERSONS WITH BENCHMARK DISABILITIES USING A SCRIBE

The visually impaired candidates and candidates whose writing speed is adversely affected permanently for any reason can use their own scribe at their cost during the online examination, subject to limits as in (ii) and (iii) below. In all such cases where a scribe is used, the following rules will apply:

- The candidate will have to arrange his/her own scribe at his/her own cost.
- The scribe arranged by the candidate should not be a candidate for the same examination. If violation of the above is detected at any stage of the process, candidature of both the candidate and the scribe will be cancelled. Candidates eligible for and who wish to use the services of a scribe in the examination should invariably carefully indicate the same in the online application form. Any subsequent request may not be favorably entertained.
- A person acting as a scribe for one candidate cannot be a scribe for another candidate.
- The scribe should be from an academic stream different from that of the candidate and essential required qualification should be one step below of the candidate.
- Both the candidate as well as scribe will have to give a suitable undertaking confirming that the scribe fulfills all the stipulated eligibility criteria for a scribe mentioned above. Further, in case it later transpires that he/she did not fulfill any laid down eligibility criteria or suppressed material facts, the candidature of the applicant will stand cancelled, irrespective of the result of the online examination.
- Those candidates who use a scribe shall be eligible for compensatory time of 20 minutes for every hour of the examination or as otherwise advised.
- Only candidates registered for compensatory time will be allowed such concessions since compensatory time given to candidates shall be system based, it shall not be possible for the test conducting agency to allow such time if he / she is not registered for the same. Candidates not registered for compensatory time shall not be allowed such concessions.
- During the exam, at any stage, if it is found that scribe is independently answering the questions, the exam session will be terminated and candidate's candidature will be cancelled. The candidature of such candidates using the services of a scribe will also be cancelled, if it is reported after the examination by the test administrator personnel that the scribe independently answered the questions.

Use of Scribe & Compensatory time (Persons having less than 40% disability)

In addition to instructions applicable to PwBD candidates (who have disability of 40% or more), following rule will apply for persons with specified disabilities covered under the definition of Section 2 (s) of the RPwD Act, 2016 but not covered under the definition of Section 2 (r) of the said Act i.e. persons having less than 40% disability and having difficulty in writing:

A. The facility of scribe and /or compensatory time shall be granted solely to those having difficulty in writing subject to production of a certificate to the effect that person concerned has limitation to write and that scribe is essential to write examination on his/her behalf from the competent medical authority of a Government healthcare institution as per Proforma at **Appendix-II**.

B. The qualification of the scribe should be one step below the essential required qualification of the candidate taking examination. The person opting for own scribe should submit details of the own scribe as per Proforma at **Appendix-III**.

(ii) Guidelines for Candidates with loco motor disability and cerebral palsy

A compensatory time of twenty minutes per hour or otherwise advised shall be permitted for the candidates with loco motor disability and cerebral palsy where dominant (writing) extremity is affected to the extent of slowing the performance of function (minimum of 40% impairment).

(iii) Guidelines for Visually Impaired candidates

Visually Impaired candidates (who suffer from not less than 40% of disability) may opt to view the contents of the test in magnified font and all such candidates will be eligible for compensatory time of 20 minutes for every hour or otherwise advised of examination.

5. GUIDELINES FOR SC/ST/OBC & PwBD CANDIDATES

- (i) The SC/ST applicants claiming reservation in eligibility criteria should keep a photocopy of the Caste/Tribe Certificate issued by the Competent Authority in the Government of India format for claiming the benefits of reservation in Civil Posts and services for these categories under the Government of India at the stage of document verification or at any date after being advised about the same.
- (ii) In case of the applicants belonging to OBC Category, the Certificate to that effect should not have been obtained one (01) year earlier from the last date of online registration. Candidates should submit a photocopy of the certificate issued by the Competent Authority in the format prescribed for claiming benefits of reservations for Other Backward Classes under the Government of India at the time of certificates verification or on any date after being advised about the same. The certificate, inter alia, must specifically state that the applicant does not belong to the socially advanced sections/ Creamy Layer. The certificate should have been obtained from the Competent Authority. The applicant should not belong to the socially advanced sections/Creamy Layer on the last date of application. The OBC applicants coming under 'Creamy Layer' will be treated as "UN-RESERVED" category applicant and hence they should select their category in online application as 'UN-RESERVED'. It may be noted that only the castes/sub-castes figuring in the Central List (Govt. of India) will be considered, and accordingly OBC caste /Sub-caste figuring in the concerned State list but not in Central List will not be considered under OBC category.
- (iii) The candidates belonging to PwBD category must produce a copy of the certificate/UDID card of their disability in the Government of India format issued by the authorities empowered to issue the certificate at the time of verification or at any date after being advised about the same.
- (iv) All shortlisted PwBD candidates shall appear before the Regional Medical Board for assessment of disability as per Disability Certificate submitted, in accordance with existing DoPT and SPMCIL guidelines. Further, Management reserves the right to refer to the shortlisted candidates to the regional Medical Board on a case-to-case basis, based on the recommendations of Document verification committee and Competent Authority.
- (v) Disability Certificate must clearly indicate that the disability is permanent in nature and Certificate reflecting temporary disability shall not be considered for availing PwBD reservation and age relaxation benefits.
- (vi) As per OM No.36035/02/2017-Estt (Res) dated January 15, 2018 issued by Department of Personnel & Training (DoPT), Government of India regarding 'Reservation for the Persons with Benchmark Disabilities', the four categories of disabilities are as under:

(A) Blindness and low vision	(B) Deaf and Hard of hearing
(C) Locomotor disability including cerebral palsy, leprosy cured, dwarfism, acid attack victims and muscular dystrophy.	(D&E) Autism, intellectual disability, specific learning disability and mental illness & Multiple disabilities from amongst persons under clauses (a) to (d) including deaf blindness

IMPORTANT DATES:

Opening date of online registration	20.04.2026
Closing date for online registration	19.05.2026 (till 23:59 hrs.)
Duration of opening of website link for applying online application	From 20.04.2026 to 19.05.2026
Payment of fees in online mode	From 20.04.2026 to 19.05.2026
Tentative Date of Online Examination which will be conducted Online.	June/July 2026
Link for download of admit cards from the website.	Applicants are advised to keep checking the Currency Note Press, Nashik website https://cnpnashik.spmcil.com for any updates, downloading Admit Card, Corrigendum etc.
If facing any difficulty while filling / submission of online application form	helpdesk number: +918064526229

6. UPPER AGE LIMIT IS RELAXABLE AS UNDER:

- (i) Upto a maximum of 5 years in respect of SC / ST candidates;
- (ii) Upto a maximum of 3 years in respect of OBC-NCL applicants;
- (iii) Upto a maximum of 3 years (8 years for SC/ST and 6 years for OBC candidates) for Ex-Servicemen. This is in addition to the period of their service in the Defence force. However, they should not have crossed 50 years of age.
- (iv) Upto a maximum of 10 years for PwBD Unreserved candidates, 15 years for PwBD SC/ST candidates and 13 years for PwBD OBC candidates (as per central list) for posts where reservation for PwBD is admissible.
- (v) Relaxation of age would be permissible to Persons with Benchmark Disabilities (PwBD) as per RPwD Act, 2016 as per the extant rules only to such persons who have minimum 40% disability.
- (vi) No relaxation in upper age limit is admissible to SC/ST/OBC candidates applying for UR vacancies.

- (vii) Relaxation of age would be permissible to OBC applicants belonging to Non-creamy layer only. A certificate to this effect issued by the competent authority to be produced by the candidate.
- (viii) For any other cases not covered in the above category, the age relaxation will be as per extant Govt. rules as promulgated from time to time.
- (ix) There shall be no age bar for the in-service SPMCIL employees who fulfill the essential qualification and experience provided they have at least three years of service left as on the date of advertisement.

Further, Internal Candidates of SPMCIL who have acquired higher qualification through part time courses will be eligible for higher positions if the same has been acquired during the service in SPMCIL with the prior approval of Competent Authority, provided they have rendered minimum length of 5 years service in SPMCIL on the closing date of application process. This exemption will not be applicable if the process of acquiring qualification was commenced or completed before joining SPMCIL.

- (x) The Age relaxation in respect of Widows/Divorced Women/ Women Judicially Separated who are not re-married shall be relaxed only for Group 'C' & erstwhile Group 'D' equivalent posts as per DoPT OM dated 30.01.2014.

Accordingly, the age relaxation is to be extended for Jr. Technician at W-1 level, Jr. Office Assistant at B-3 level and Secretarial Assistant at B-4 level & Artist (Graphic Design) at B-4 level in following manner:

Widows/divorced women/women judicially separated who are not re- married (For posts at W-1/B-3 and B-4 level posts)	Upto 35 years for (UR/EWS/OBC) 40 Years for (SC/ST)
---	---

Note: Candidates belonging to the Scheduled Castes and the Scheduled Tribes and the Other Backward Categories /Classes who are also covered under any other clauses of above, viz. those coming under the category of Ex-servicemen, Persons with Benchmark Disabilities etc. will be eligible for grant of cumulative age-relaxation under both the categories subject to maximum age limit prescribed and relevant Government rules.

7. EXAMINATION FEES AND INTIMATION CHARGES:

- Rs.1000/-**(Non-Refundable) for candidates belonging to Un-reserved, EWS and OBC Categories.
- Candidates belongs to SC/ST/PwBD are required to pay a non –refundable fee of **Rs. 200** towards service expenses.
- The above prescribed fee is inclusive of GST.
- Transaction charge if any levied by the Bank for the payment of above application fees is to be borne by the applicants.
- Payment in any other manner will not be accepted and the applicant will be considered not eligible. Applicants paying lesser fees will also not be eligible.
- Fees once paid will not be refunded. Candidates are therefore, requested to verify their eligibility before payment of the application fee.

8. SELECTION PROCEDURE:

A. The method of selection is mentioned in the above table provided in Para 1 of this advertisement against each post. The final selection will be made on the basis of Merit List as per marks obtained in Online Examination only. However, the details are as under:

- Selection to the posts of Welfare Officer at A-2 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1	Professional knowledge in the respective stream	90	90	120 Minutes
2.	Basic Computer knowledge & English Language	30	30	
3.	Logical Reasoning & Quantitative Aptitude	30	30	
Total		150	150	120 Minutes

- ii. **Selection to the post of Safety Officer at P-2 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1	Professional knowledge in the respective stream	90	90	120 Minutes
2.	Basic Computer knowledge & English Language	30	30	
3.	Logical Reasoning & Quantitative Aptitude	30	30	
Total		150	150	120 Minutes

- iii) **Selection to the posts of Supervisor (Technical Control) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

- iv) **Selection to the posts of Supervisor (T.O.-Printing) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

- v) **Selection to the posts of Supervisor (Information Technology) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

- vi) **Selection to the posts of Supervisor (T.O.-Mechanical) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

- vii) **Selection to the posts of Supervisor (T.O.-AC Plant) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

viii) **Selection to the posts of Supervisor (T.O.-Electrical) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

ix) **Selection to the posts of Supervisor (T.O.-Electronics) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

x) **Selection to the posts of Supervisor (Ink Factory) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

xi) **Selection to the posts of Supervisor (Mechanical/Air Conditioning) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

xii) **Selection to the posts of Supervisor (Electrical/Electronics) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

xiii) **Selection to the posts of Supervisor (T.O.-Civil) at S-1 Level** will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

xiv) Selection to the posts of Supervisor (TO- Instrumentation) at S-1 Level will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	Professional knowledge in the respective stream	105	105	120 Minutes
2.	Quantitative Aptitude	25	25	
3.	Logical Reasoning	20	20	
Total		150	150	120 Minutes

xv) Selection to the post Supervisor (Official Language) at A-1 Level will be done on the basis of online examination which will be of objective type. The duration of the examination is 120 minutes. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1	Professional knowledge Test of Domain knowledge which includes Hindi to English and vice-versa translation skills (Which includes Hindi & English comprehension).	30	30	120 Minutes
2.	General Awareness with special emphasis on Computer knowledge	30	30	
3.	General Hindi	30	30	
4.	General English	30	30	
5.	General Knowledge / Current Affairs.	30	30	
Total		150	150	120 Minutes

xvi) Selection to the post Secretarial Assistant at B-4 Level will be done on the basis of online examination which will be of objective type. The details are as under:

Sr. No.	Name of the Test	No. of Qs.	Marks	Duration
1.	General Awareness	30	30	120 Minutes
2.	English Language	30	30	
3.	Logical Reasoning	30	30	
4.	Quantitative Aptitude	30	30	
5.	Computer Knowledge	30	30	
Total		150	150	120 Minutes

➤ For the post of Secretarial Assistant at B-4 Level, first Computer Based Test (CBT) i.e. Online Test will be conducted for all the Candidates who have applied, those candidates who qualify the written test will be called for Skill test i.e. Stenography Test. 2	Quantitative Aptitude	20	20	
3	Logical Reasoning	15	15	
Total		120	120	120 Minutes

B. Procedure for arriving at Scores in online examination:-

- i. Number of questions answered correctly by a candidate in each objective test is considered for arriving at the Corrected Score.
- ii. In the Selection process, an applicant has to obtain high marks in the test and rank sufficiently higher to be allowed for next stage for further process of selection wherever skill test is applicable.
- iii. Merely qualifying in the online examination will not entitle an applicant to appointment to the posts mentioned above in the respective unit as per their preference and merit.
- iv. **There will be no negative marking** for wrong answer for online examination. The final merit list will be drawn by the marks obtained in the online examination. The minimum qualifying marks i.e., cut-off marks required to consider on order of merit for different categories of candidates are as under:

UR & EWS Category	55%
OBC Category	50%
SC/ST Category	45%

v. In the event of a tie (equal marks) in online examination scores, then the Resolution of Tie shall be made in the following order of preference:

- a) The Candidate Scoring Higher Marks in the Professional Knowledge.
- b) The Candidate older in age will get preference.
- c) The Candidate Scoring Higher Marks in Essential Qualification.

C. Download of Call Letter/Admit Card: Applicants who have successfully completed online registration process will be allowed to download call letters for the "Online" examination on the basis of the information furnished in the Online application. No detail scrutiny of application will be carried out at the time of issuing call letters online. The call letters can be downloaded from the Company's website <https://cnpnashik.spmcil.com>. Once the applicant clicks the relevant link, he/she can access the window for downloading call letter. The applicant is required to use (1) Application Number (2) Password for downloading the call letter. Applicants are required to affix recent recognizable photograph on the call letter preferably the same as provided during registration. Applicants have to appear at the examination centre with (1) Original Call Letter and (2) Original Photo Identity Proof as specified and mentioned in call letter. Applicants are also required to bring one photocopy of the original photo identity proof. Intimation for downloading call letter will also be sent through email/SMS to the email id and mobile number as given by them in the online application form. However, applicants should keep checking the above website for latest updates.

D. Applicants reporting late for online examination: Applicants reporting late for online examination i.e. after the reporting time specified on the call letter for Examination will not be permitted to take the examination. The reporting time mentioned on the call letter is prior to the Start time of the test. Though the duration of the examination is 2 hours, applicants may be required to be at

the venue for about 4 hours including the time required for completion of various formalities such as verification and collection of various requisite documents, logging in and briefing of instructions for Computer Based Test (CBT) i.e. Online Test.

- The possibility for occurrences of some problem in administration of the examination cannot be ruled out completely which may impact test delivery and/or result from being generated. In that event, every effort will be made to rectify the problem, which may include movement of candidate, delay in test. Conduct of re-examination is at the absolute discretion of test conducting body. Candidates will not have any claim for re-test. Candidates not willing to move or not willing to participate in the delayed process of test delivery shall be summarily rejected from the process.
 - If the examination is held in more than one session, the scores across various sessions will be equated to adjust for slight differences in difficulty level of different test batteries used across sessions. More than one session are required if the nodes capacity is less or some technical disruption takes place at any center or for any applicant.
 - In order to overcome the possibility of applicants seeking help of other applicants during the online examination, an analysis of the responses (answers) of individual applicants with those of other applicants in the online examination to detect patterns of similarity of right and wrong answers will be done. On the basis of such an analysis, it is inferred/concluded that the responses have been shared and scores obtained are not genuine/valid, the Currency Note Press, Nashik being Nodal Unit reserves the right to cancel the candidature of the concerned applicant and the result of such applicants (disqualified) will be withheld. Hence the applicants are advised in their own interests not to indulge in any unfair practice/ malpractice in the examination.
 - Instances for providing incorrect information and/or process violation by an applicant detected at any stage of the selection process will lead of disqualification of the applicant from the selection process and he/she will not be allowed to appear in any recruitment process of the organization in the future. If such instances go undetected during the current selection process but are detected subsequently, such disqualification will take place with retrospective effect.
- i) Number of questions answered correctly by a candidate in each objective test is considered for arriving at the Corrected Score.
- ii) The Corrected Scores obtained by a candidate are made equivalent to take care of the minor difference in difficulty level, if any, in each of the objective tests held in different sessions to arrive at the Equated Scores.
- * Scores obtained by candidates on any test are equated to the base form by considering the distribution of scores of all the forms.
- iii) Test wise Scores and scores on total is reported with decimal point up to two digits.
- iv) Even after the online examination, the test paper will not be shared to anybody.
- v) There is no Negative Marking.
- vi) The Online Examination for the posts will be conducted at the following centers:
- | | | |
|--------------|-----------------|--------------|
| 1. Nashik | 2. Mumbai | 3. Kolkata |
| 4. Hyderabad | 5. Delhi (NCR), | 6. Bhopal |
| 7. Indore | 8. Chennai | 9. Bangalore |
- vii) Applicants should wisely select the preference option of 04 examination centers in Online Application Form. After submitting of online application, no changes are allowed at any stage. However, the candidate will be allotted only one center as per the availability and once center will be allotted, it will not be changed.
- viii) Applicants will be allotted only one exam centre. Choice of centre once exercised by the applicant will be final. No request for change of centre/venue/date/session shall be entertained. Efforts will be made to allot candidates to the opted centre. However, if sufficient number of applicants does not opt for a particular centre, the Company reserves the right to allot any other adjacent centre to those applicants OR if the number of applicants is more than the capacity available for Online examination for a centre. The Company reserves the right to allot any other centre to the candidate. The Company reserves the right to cancel any of the centers and/or add some other centers at its discretion, depending upon the response, administrative feasibility etc. The Company also reserves the right to allot the applicants to any of the centers other than the one he/she has opted for either within the state or outside the state.

- ix) All applicants will have to appear for the Online Examination at their own risks and expenses. Company will not be responsible for any injury or losses etc. of any nature.
- x) Admission to the examination will be purely provisional without verification of age/qualification/experience/category (SC/ST/OBC/PwBD/EWS/Ex-SM)/Character & Antecedents etc. of the applicants. Each applicant should, therefore, ensure that he/she fulfills the eligibility criteria and the particulars furnished in the application are complete and correct in all respects. In case, it is decided at any stage that an applicant does not fulfill the eligibility criteria and/ or has furnished incorrect/ false information or has suppressed any material information, his / her candidature will be cancelled. If any of these shortcomings are detected after appointment his/her services will be summarily terminated without giving any notice, or any compensation in lieu thereof.

GENERAL CONDITIONS:

- (i) Applicants who do not fulfill age criteria and the minimum educational qualification etc. as on closing date of submission of applications need not apply for the post.
- (ii) At the time of Document Verification, the shortlisted candidates need to submit their educational qualification proofs duly verified by the concerned Institute in the prescribed format provided by this organization. However, in case of joining your appointment will be provisional till verification of the documents from concern authorizes/institute/ college etc. or probation period, which may be later.
- (iii) Please note that in the event of selection, applicant's appointment will be considered provisional. The final confirmation of appointment will be subject to the successful/ correct verification of all documents from the concern authorities only.
- (iv) Applicant must have possessed the required essential educational qualifications from a recognized university/college/institute as on closing date of online registration.
- (v) If the candidates are not found eligible during the document verification process, their candidature will be rejected.
- (vi) If any of these shortcomings i.e. wrong /suppressed/ in-correct information is detected during provisional appointment, his/her services will be summarily terminated without giving any notice, or any compensation in lieu thereof.
- (vii) Candidate's admission to all the stages of recruitment process will be purely provisional subject to satisfying the prescribed eligibility criteria mentioned in this advertisement as well as till verification of all the documents i.e. educational, cast/community, PwBD, Ex-SM/EWS etc. from the concern authorities.
- (viii) The post notified may be increased or decreased as per the need/requirement. The recruitment process for the posts or any particular post(s) can be cancelled/ suspended/terminated without assigning any reasons. The decision of the management will be final and no appeal will be entertained.
- (ix) The final selection will be on Merit Basis as per marks obtained in On-line Examination only.
- (x) All posts will be required to perform their work/duties on shift duty i.e. day & night shift as per requirement and place of posting i.e. Shop floor/Non-Shop floor area.
- (xi) Junior Technician will be involved in manual work, loading/unloading of material and the other work as assigned time to time.
- (xii) The syllabus of the examination of the respective posts attached at **Annexure - III** and Duties & Responsibilities attached at **Annexure - IV**.
- (xiii) The selected candidates are required to work for 8 hours (excluding lunch hour/recess hour) per day with 6 days a week working, i.e. 48 hours per week as per the Factories Act, 1948 or as per the applicable Codes, which have been recently notified. However, the working hours may be increased as and when need basis.
- (xiv) Online application can be submitted by a candidate separately against each post, which means that candidate can apply for more than one post provided eligibility criteria is fulfilled. Candidates will have to deposit examination fees separately for each post.

- (xv) The provisionally selected candidates will be placed on probation for a period of one year. The period of probation may be extended by a further period of the discretion of the Concern Unit where candidate will be joined.
- (xvi) The candidates will be recruited for Currency Note Press, Nashik (Maharashtra), India Security Press, Nashik (Maharashtra), Bank Note Press, Dewas (Madhya Pradesh) and Security Printing Press, Hyderabad (Telangana). However, as per the organizational requirement, candidates are liable for transfer to any of the units under SPMCIL.
- (xvii) The exact date of online examination, session, reporting time for examination will be mentioned in the call letter. The online examination will be conducted online in venues given in the respective call letters. The applicants are requested to keep checking the Currency Note Press, Nashik website <https://cnpnashik.spmcil.com> for any updates.
- (xviii) The Currency Note Press, Nashik being Nodal Unit reserves the right to cancel any of the examination centers and/or add some other centers at its discretion, depending upon the response, administrative feasibility etc.
- (xix) No request for change of centre/venue/date/session for online examination shall be entertained. The Currency Note Press, Nashik being Nodal Unit reserves the right to allot any other centre other than the one opted for to the candidate.
- (xx) If sufficient number of candidates does not opt for a particular centre for “online” examination, Currency Note Press, Nashik reserves the right to allot any other adjunct centre to those candidates OR if the number of candidates is more than the capacity available for online examination for a centre, Currency Note Press, Nashik reserves the right to allot any other centre to the candidate.
- (xxi) No TA/DA will be provided for appearing for Online Examination/Skill Test.
- (xxii) Ex-Servicemen applicants should keep a copy of discharge certificate. They should note that they are having required qualification/experience to be eligible for the post.

6. The Diploma in Personnel Management of National Institute, **Kolkata.**

Certificate for person with specified disability covered under the definition of Section 2 (s) of the RPwD Act, 2016 but not covered under the definition of Section 2(r) of the said Act, i.e. persons having less than 40% disability and having difficulty in writing

This is to certify that, we have examined Mr/Ms/Mrs (name of the candidate), S/o /D/o, a resident of(Vill/PO/PS/District/State), aged yrs, a person with (nature of disability/condition), and to state that he/she has limitation which hampers his/her writing capability owing to his/her above condition. He/she requires support of scribe for writing the examination.

2. The above candidate uses aids and assistive device such as prosthetics & orthotics, hearing aid (name to be specified) which is /are essential for the candidate to appear at the examination with the assistance of scribe.

3. This certificate is issued only for the purpose of appearing in written examinations conducted by recruitment agencies as well as academic institutions and is valid upto _____(it is valid for maximum period of six months or less as may be certified by the medical authority)

Signature of medical authority (Signature & Name)	(Signature & Name)	(Signature & Name)	(Signature & Name)	(Signature & Name)
Orthopedic/ PMR specialist	Clinical Psychologist/ Rehabilitation Psychologist/ Psychiatrist/ Special Educator	Neurologist (if available)	Occupational therapist (if available)	Other Expert, as nominated by the Chairperson (if any)
(Signature & Name)				
Chief Medical Officer/Civil Surgeon/Chief District Medical Officer.....Chairperson				

Name of Government Hospital/Health Care Centre with Seal

Place:

Date:

Letter of Undertaking by the person with specified disability covered under the definition of Section 2 (s) of the RPwD Act, 2016 but not covered under the definition of Section 2(r) of the said Act, i.e. persons having less than 40% disability and having difficulty in writing

I _____, a candidate with _____(nature of disability/condition) appearing for the _____(name of the examination) bearing Roll No. _____ at _____ (name of the centre) in the District _____, _____ (name of the State). My educational qualification is _____.

2. I do hereby state that _____ (name of the scribe) will provide the service of scribe for the undersigned for taking the aforementioned examination.

3. I do hereby undertake that his qualification is _____ . in case, subsequently it is found that his qualification is not as declared by the undersigned and is beyond my qualification. I shall forfeit my right to the post or certificate/ diploma / degree and claims relating thereto.

(Signature of the Candidate)

(Counter signature by the parent/guardian, if the candidate is minor)

EVALUATION OF TRANSCRIPTS OF STENOGRAPHY TESTS - NATURE OF MISTAKES

1. **FULL MISTAKES:** The following mistakes are treated as full mistakes:-

- a) Every omission of word or figure. In case a group of words is omitted, mark as many mistakes as the actual number of words omitted.
- b) Every substitution of a wrong word or figure. The number of mistakes will be equal to the number of words/ figures dictated which have been replaced/ substituted by other word(s)/ figure(s). However, if a figure is written correctly either in numeral or words both will be acceptable and will not be counted as mistake.
- c) Every addition of a word or figure or a group of words or figures not occurring in the dictated passage.

2. **HALF MISTAKES:** The following are treated as half mistakes:-

- a) Wrong spelling, including transposition of letters in a word and also omission of a letter or letters from a word. Mis-spelling of proper nouns and unfamiliar names are ignored. If the wrongly spelt word occurs more than once in the passage it will be treated as a single half mistake.
- b) Using singular or plural noun and vice versa.
- c) Use of small letter at the beginning of the sentence.

NOTE

- a) More than one error in a single word: All the errors are counted but the total mistakes counted in a single word should not exceed one full mistake.
- b) Every passage will be accompanied by a list of words which can be spelt/ written in more than one form. All the spellings/ forms of words will be acceptable and not counted as error. For example the word 'Honorable' is written as Hon'ble, Hon., honourable and hon. - all these forms will be treated as correct.
- c) CANDIDATES ARE NOT PENALISED FOR ANY TYPE OF ERRORS OR MISTAKES OTHER THAN THOSE DESCRIBED ABOVE.
- d) The above guidelines will be valid for Hindi Stenography Skill Test also.
- e) Method of calculation of mistakes in Stenography Skill Test:-

$$\text{Percentage of Errors} = \frac{(\text{Full Mistakes} + \text{Half Mistakes}/2) \times 100}{\text{Number of words in the master passage}}$$

Percentage will be rounded off to two decimal places. For example 5.009 will be treated as 5.01 and 5.001 will be treated as 5.00.

EVALUATION OF TYPING TEST/DEST SCRIPTS (ENGLISH/HINDI)

NATURE OF MISTAKES

A. **Full Mistakes:** The following errors are treated as full mistakes:

- i. For every omission of a word/figure.
- ii. For every substitution of a wrong word/figure, except transposition of words.
- iii. For every addition of a word/figure not found in the passage.
- iv. For every spelling error committed by way of repetition, or addition, or omission, or substitution of a letter/letters, e.g. the word 'spelling' typed as seeplings; seplling; speling, seepling; spelling etc.
- v. For repetition of word/figure, e.g. 'I shall shall be grateful
- vi. Incomplete words (half typed words will be treated as mistake).

B. **Half Mistakes:** The following errors are treated as half mistakes :-

- i. **Spacing Errors:** Where no space is provided between two words, e.g. 'Ihope', or undesired space is provided between the words or letters of a word e.g. 'I have', 'I h ave' (space left between a word).
- ii. **Wrong Capitalisation :** Wrong typing of a capital letter for small letter or vice-versa. (This does not apply in respect of Hindi Typewriting scripts)
- iii. **Punctuation Errors:** Where the punctuation mark is omitted or added or substituted by another.
- iv. **Transposition Errors:** Where words are transposed, e.g. the words 'I hope' typed as 'hope I'.
- v. **Paragraphic Errors:** Half mistake shall be treated for each irrational para, where the space given before starting of any paragraph is not uniform, i.e paragraph given manual spaces; without pressing the **Tab Key**, will be treated half-mistake.

NOTE:

Any corrections made by pen or pencil will be treated as a Mistake.

Enclosures: Instructions to the Candidates (Appendix-A).

INSTRUCTIONS TO THE CANDIDATES

- The candidates are expected to type the words/figures and numerical/years in the manner as given in the Question Paper (both in English & Hindi). Mistake will be treated if a candidate types differently or in other language. This applies for both in English & Hindi Mediums.
- The candidate is required to type the Test Passage in the Medium opted by him, e.g. if he opts for English Medium, he is required to type in English language and vice-versa. No credit will be given if a candidate types in the Medium not opted by him.
- Candidates are required to use **Tab Key** for beginning of any Para; rather than giving spaces manually. Every Para, where the space given without pressing the **Tab Key**, will be treated as a half-mistake.
- Candidates are **Not** required to repeat the passage, if he/she has completed the passage once and has time in his/her disposal, however they are allowed to revise and correct their mistakes and inaccuracies, if any, during the prescribed time.
- After every Punctuation mark, only **One** space is to be inserted, e.g. after comma, full stop, mark of interrogation etc. However, candidates are advised to follow the Question paper scrupulously in this regard.
- Any irrelevant matter/numerical typed will be treated as a mistake.
- Any incomplete word arising due to any reason, will be treated as one full mistake

IMPORTANT INSTRUCTION FOR SKILL/TYPING TEST

A) Criteria for Calculation of Typing Speed and Error-

I. The Criteria for evaluation of typing speed & error is illustrated below as-

Note: **1 word = 5 key strokes, 1 error = 5 key strokes.**

Net Speed (WPM) = [(Gross Strokes - Error Hits)/5]/ Total Test Time (Min).

Duration: 10 min.

Gross Strokes = Total Stokes Typed in 10 Min. e.g. 2000.

Words Typed (2000/5)=400.

Gross Speed 400/10 = 40 WPM.

II. Criteria for Calculation of Error

Mistakes / Error Stokes = 250.

Error Words = 250/5=50.

Net Errors = 50/10= 5 WPM.

Net Speed = 40-5 = 35 WPM.

B) Percentage of Error allowed -

i. Relaxation of 5% error for UR Category.

ii. Relaxation of 7% error for other Categories.

Indicative syllabus

Syllabus for Supervisor (TO – Printing) & Supervisor (Technical Control) at S-1 level

1. **Basics of Printing:** Types of printing processes, Offset Printing, Letter press printing, Screen Printing, Flexography, Gravure Printing.
2. **Pre-Press:** Image processing & colour separation, Plate making techniques, Computer to Plate (CTP), conventional plate making, Layout & design basics etc.
3. **Press (Machine Section):** Printing machines & working principles, Machine maintenance basics, Ink-water balance (offset), Registration & colour control etc.
4. **Post-Press:** Cutting, binding, finishing, Numbering, perforation, Packaging basics etc.
5. **Printing Materials:** Types of paper (security paper, coated/uncoated), Inks (security inks, UV inks, etc.), Plates, blankets, chemicals etc.
6. **Quality Control:** Colour measurement (densitometer/spectrophotometer basics), Defects in printing & troubleshooting, ISO standards basics etc.
7. **Industrial Safety & Security:** Industrial safety acts, Security printing concepts (All documents related to security printing i.e. currency, stamps etc.).
8. **Supervisory & Management Skills:** Production planning & control, Manpower handling, Shift management, Inventory control (raw materials & finished goods), Basic industrial laws & discipline.
9. Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).

Syllabus for Supervisor (Ink Factory) at S-1 level:

1. **Physical Chemistry:** Thermodynamics (laws, enthalpy, entropy, free energy, chemical potential, joule-thomson coefficient etc.), Chemical kinetics, Surface chemistry (adsorption, catalysis), chemical & ionic equilibrium, electrochemistry, Ideal & non-ideal solutions, colligative properties, Gas laws & Real gases,
Organic Chemistry: Polymers, resins, binders, Solvents and additives used in inks, Aliphatic and aromatic carbon compounds, General Organic Chemistry (IUPAC nomenclature, Isomerism, Homologues series, various electronic effects, Hyperconjugation, Neighbouring Group participation, Reaction mechanisms of simple reactions – SN1, SN2, SN2', SNi, E1, E2, E1cB; organic named reactions).
Inorganic Chemistry: Pigments (organic & inorganic) Metallic compounds used in security inks, Colloids & dispersion systems, Mole concept, Redox reactions, laws of chemical combination, Equivalence, Volumetric analysis, Periodic classification & properties, Atomic structure & Chemical bonding.
2. **Printing Ink Technology:** Ink formulation principles.
Raw materials: Pigments, dyes, Binders (resins, varnishes), Solvents & additives.
Types of inks: Offset inks, Screen printing inks, UV-curable inks.
Ink properties: Rheology (flow behaviour), Viscosity & tack, Curing mechanisms (oxidation, solvent evaporation, UV curing), Colour science: Colour matching, Shade control, CIE indices etc.
3. **Ink Manufacturing Process:** Batch & continuous manufacturing.
Process flow: Pre-mixing, Grinding & dispersion, Milling (ball mill, bead mill, triple roll mill), Filtration & finishing.
Process parameters: Temperature, pressure, shear rate.
Troubleshooting: Shade variation, Poor dispersion, Drying issues.
4. **Equipment & Engineering Knowledge:**
Machines used in ink plants: High-speed dispersers, Ball mills, Bead mills, Triple roll mills.
Maintenance basics: Preventive maintenance, Breakdown handling.
Basics knowledge of Mechanical systems, Electrical motors & drives, Pumps and valves.
5. **Quality Control & Assurance:**
Testing methods: Viscosity (viscometer), Colour measurement (spectrophotometer), Gloss, drying time, Particle size (Hegman gauge), Tack (Tackometer).
QA systems: ISO standards (ISO 9001 basics), Documentation & SOPs, Statistical Quality Control (SQC) basics.
6. **Security Printing & Special Inks:** UV/IR fluorescent inks, Magnetic inks, Optically variable inks
7. **Industrial Safety & Environmental Management:** Chemical safety & MSDS, Hazardous material handling, Fire & explosion safety.
Pollution control: Air, water, solid waste, PPE and safety audits.
8. **Supervisory & Management Skills:** Production planning & control, Manpower handling, Shift

management, Inventory control (raw materials & finished goods), Basic industrial laws & discipline.

9. Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).

Syllabus for Junior Technician (Printing)/ (Control)/ (Store) at W-1 level

1. Basics of Printing Technology: Introduction to printing processes, Offset printing, Letterpress Printing, Gravure printing, Flexography printing, Screen printing.
2. Printing workflow (Pre-press → Press → Post-press).
 - i) Pre-Press Operations:** Types of artwork and design basics, Image processing and colour correction, Plate making methods (CTP – Computer to Plate), Fonts, layout, imposition, Basics of software like: Adobe Photoshop, Corel DRAW, Adobe Illustrator.
 - ii) Press (Machine) Operations:** Offset printing machine parts and functions, Feeding system, dampening system, inking system, Registration and alignment, Printing defects and trouble-shooting, Preventive maintenance of machines.
 - iii) Post-Press Operations:** Cutting, folding, binding, Lamination, varnishing, embossing, Packaging and finishing techniques.
3. **Ink, Paper & Materials:** Types of printing inks and properties, Paper types (GSM, coatings), Ink–paper compatibility, Drying methods.
4. **Quality Control:** Print quality parameters, Colour matching and density control, Common defects (ghosting, smudging, mis-registration), Inspection tools.
5. **Mechanical & Electrical Basics:** Basic mechanical concepts (gears, bearings), Electrical safety and basics, Machine handling and safety practices.
6. **Industrial Safety:** Workplace safety rules, Fire safety, Use of PPE (Personal Protective Equipment).
7. Basic electrical concepts like current, voltage, resistance, Ohm's law, AC/DC circuits, wiring systems, earthing, electrical safety, and use of measuring instruments like multimeter.
8. Basic Electrician practical includes house wiring, cable joints, testing circuits, fuse and MCB installation, and basic motor connections.
9. Basics of electronics such as components (resistors, capacitors, diodes, transistors), circuit theory, soldering, PCB, and measuring instruments.
10. Basic Electronics practical includes circuit assembly, testing with multimeter, rectifier circuits, amplifier basics and troubleshooting simple electronic devices.
11. Basic Workshop practices like marking, filing, fitting, drilling, welding, grinding, and use of measuring tools such as Vernier calliper and micrometre.

Syllabus for Junior Technician (Ink Factory - Attendant Operator) at W-1 level

1. **Basic Chemistry:** Dalton's atomic theory, Bohr atom model (qualitative only without any mathematical treatment), elements, compounds, mixtures, Acids, bases, salts, pH scale, Chemical bonding (Ionic & covalent - qualitative only without any mathematical treatment and restricted to Lewis dot structures only).
General chemistry: Volumetric analysis, Gravimetry, Chemical reactions & equations.
2. **Chemical Plant Operations:** Introduction to chemical plant processes, Batch & continuous process
Unit operations: Mixing, Handling of chemicals, Process control basics.
3. **Equipment & Machinery:** Pumps: Centrifugal pump, Gear pump.
Valves: Gate valve, Globe valve, Check valve, Compressors, blowers, Pipes & fittings, Maintenance basics.
4. **Instrumentation & Measurement:** Pressure measurement, Temperature, Flow measurement (Ford cup), Level measurement.
5. **Industrial Safety:** PPE (helmet, gloves, goggles).
Fire: Types of fire, Fire extinguishers, Hazard & risk, MSDS (Material Safety Data Sheet), First aid, Accident prevention.
6. **Workshop & Fitting Basics:** Hand tools (file, hammer, chisel), Drilling, tapping, reaming
Measuring instruments: Vernier calliper, Micrometre.
7. **Environmental & Utility Systems:** Ambient air quality, manufacturing wastes (chemical) disposal.
8. **Ink manufacturing basics:** Mixing & grinding process, particle size, colour shade etc.

Syllabus for Junior Technician (Ink Factory – Laboratory Assistant) at W-1 level

1. **Basic & Applied Chemistry:** Dalton's atomic theory, Bohr atom model (qualitative only without any mathematical treatment), elements, compounds, mixtures, Acids, bases, salts, pH scale, Chemical bonding (Ionic & covalent - qualitative only without any mathematical treatment and restricted to Lewis dot

structures only).

General chemistry: Volumetric analysis, Gravimetry, Chemical reactions & equations.

- Laboratory Practices** - Use of glassware: Beaker, burette, pipette, flask, Preparation of solutions, Titration (acid-base, redox, complexometric), Sampling techniques.
- Analytical Techniques:** Qualitative inorganic & organic analysis.
Instrumental analysis (basic idea on operational methods only): Conductometer, potentiometer, pH meter, Spectrophotometer, Weighing balance, Muffle furnace, Calibration of instruments, Thermometer, Pressure gauge.
- Ink & Chemical Testing
Ink components: Pigments, dyes, resins, solvents.
Testing of inks: Viscosity, Colour matching, Drying time, Quality control methods.
- Safety in Laboratory:** Lab safety rules, PPE (gloves, goggles, lab coat), Handling hazardous chemicals, MSDS (Material safety Data Sheet), First aid in lab
- Environmental & Utility Systems:** Ambient air quality, manufacturing wastes (chemical) disposal.
- Ink Factory Specific Knowledge:** Ink manufacturing basics, Mixing & dispersion, Security inks

Syllabus for Artist (Graphic Design) at B-4 level

- Fundamentals of Art & Design.**
Elements of design: Line, shape, colour, texture etc.
Principles of design: Balance, contrast, rhythm, hierarchy, Drawing & sketching techniques, Visual composition etc.
- Art & Design History:** History of art & architecture, Evolution of graphic design, Indian & Western art styles, Contemporary design trends etc.
- Typography:** Fonts & typefaces, Layout design, Text composition etc.
- Illustration & Visualization:** Manual illustration, Digital illustration, Character design etc.
- Digital Graphic Design Tools:** Adobe Photoshop, Adobe Illustrator, CorelDRAW.
- Web & Digital Media Design:** Web design basics, UI/UX fundamentals, Interactive design, Multimedia design.
- Animation & Motion Graphics:** Basics of animation, 2D / 3D animation, Visual effects (VFX), Motion graphics.
- Visual Communication & Branding:** Logo design, Brand identity, Advertising design
Packaging design.
- Printing & Publication Design:** Layout design (magazines, books), Printing techniques Colour theory & colour correction, Pre-press & post-press basics.
- Visual Arts (BVA / BA Visual Arts):** Drawing & painting, Sculpture basics, Photography, Digital art etc.
- Supporting Subjects:** Communication skills Environmental studies, Computer basics, Design research & methodology.
- Important Skills Required:** Creativity & visualization, Colour sense, Software skills, Layout & composition understanding.

Supervisor (Air Conditioning)

- Fundamentals of Refrigeration :**
Definition, need and applications of refrigeration, Units of refrigeration (TR, kW), Methods of refrigeration (natural & artificial), Refrigeration cycles, Carnot Cycle
Bell-Coleman Cycle, Coefficient of Performance (COP), Limitations and practical considerations
- Vapour Compression & Absorption Systems**
Vapour Compression Refrigeration System (VCRS):Components: compressor, condenser, expansion valve, evaporator, Working principle, Wet vs dry compression, Effects of Sub cooling and Superheating, Vapour Absorption System (VAS):Working principle, Comparison with VCRS, Use of P-H diagrams
- Refrigerants and Environmental Aspects**
Definition and classification of refrigerants, Primary vs secondary refrigerants, Properties of ideal refrigerant, Common refrigerants: Ammonia (NH₃), CO₂, Freons (R-12, R-22, R-134a), Environmental impact: ODP (Ozone Depletion Potential), GWP (Global Warming Potential), Safe handling and storage.
- Psychrometry and Air Properties**
Composition of air, Psychrometric terms: Dry bulb temperature, Wet bulb temperature, Dew point, Relative humidity, Specific humidity & enthalpy, Psychrometric chart: Reading and applications, Air conditioning processes: Heating, Cooling, Humidification
- Air Conditioning Systems & Applications**
Definition and objectives of air conditioning, Types of systems: Window AC, Split AC, Packaged AC, Central AC, Components of AC systems, Year-round air conditioning, Applications: Residential, Commercial, Industrial

6. **Heat Load Calculation**
Concept of heat load, Types: Sensible heat, Latent heat, Sources of heat gain: Occupants, Equipment, Solar radiation, Sensible Heat Factor (SHF), Basic cooling load estimation methods
7. **RAC Installation Techniques**
Installation procedures :Window AC and Split AC, Piping layout and insulation, Electrical connections, Charging of refrigerant, Leak detection methods, Commissioning procedures
8. **Maintenance & Troubleshooting of RAC Systems**
Preventive maintenance, Breakdown maintenance, Fault diagnosis: Compressor faults, Refrigerant leakage, Electrical faults, Tools & instruments used, Performance testing
9. **RAC Piping, Materials & Components**
Types of piping materials (copper, steel), Insulation materials, Valves and fittings, Compressors: Reciprocating, Rotary, Condensers and evaporators, Expansion devices
10. **Industrial Management, Safety & Quality**
Basics of industrial management, Total Quality Management (TQM), Work planning & supervision, Safety practices: Electrical safety, Refrigerant handling safety, Emergency procedures, Entrepreneurship basics
11. **Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).**

Syllabus for Supervisor (Civil Engineering)

1. **Building Planning & Drawing**
Principles of building planning: orientation, ventilation, sanitation, Types of buildings: residential, public, industrial, Building bye-laws and regulations, Preparation and interpretation of drawings, Floor plans, elevations, and sections, Basics of Computer-Aided Drafting (CAD)
2. **Engineering Mechanics & Strength of Materials**
Force systems and equilibrium, Stress and strain, Elastic constants, Bending moment and shear force, Torsion and buckling of columns
3. **Concrete Technology**
Ingredients of concrete, Properties of fresh and hardened concrete, Mix design basics, Workability and compaction, Curing methods, Admixtures and quality control
4. **Construction Engineering & Management**
Construction planning and scheduling (CPM, PERT), Resource management, Site supervision and organization, Contracts and tendering, Safety management, Quality control
5. **Surveying & Geomatics**
Chain and compass surveying, Levelling and contouring, Theodolite surveying, Total station and GPS basics, Errors and adjustments
6. **Fluid Mechanics & Hydraulics**
Properties of fluids, Fluid statics and dynamics, Bernoulli's theorem, Flow through pipes, Open channel flow, Hydraulic machines basics
7. **Geotechnical Engineering**
Soil properties and classification, Permeability and seepage, Shear strength, Compaction and consolidation, Bearing capacity, Types of foundations
8. **Structural Analysis**
Types of loads, Analysis of determinate structures, Shear force and bending moment diagrams, Deflection of beams, Basic indeterminate structures
9. **Environmental Engineering**
Water supply systems, Water treatment, Sewage and wastewater treatment, Solid waste management, Pollution control
10. **Estimation, Costing & Engineering Economics**
Types of estimates, Quantity take-off, Rate analysis, Preparation of BOQ, Costing and budgeting, Basics of economics
11. **Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).**

Supervisor (Electrical and Electronics)

1. **Basic Electrical & Electronics Engineering**
Ohm's Law, Kirchhoff's Laws, AC/DC fundamentals, Basic circuit components (R, L, C, diode, transistor)
2. **Network Analysis**
Nodal & Mesh analysis, Network theorems (Thevenin, Norton), Transient & steady-state analysis
3. **Electrical Measurements & Instruments**
Ammeter, Voltmeter, Wattmeter, DMM, CRO/DSO basics, Measurement errors & calibration
4. **Electrical Machines (Basics)**
Transformer fundamentals, DC machines, Induction motors (basic operation)
5. **Basic Electronics**
Semiconductor basics, Diodes, Transistors, Rectifiers & Amplifiers

6. **Digital Electronics**
Logic gates, Number systems, Flip-flops and basic circuits
7. **Signals & Systems (Basics)**
Types of signals, Fourier & Laplace basics, Sampling concept
8. **Power & Energy Basics**
Electrical power concepts, Energy conversion principles, Basics of batteries & energy systems
9. **Electrical Safety & Protection**
Earthing, Protective devices (MCB, fuse, relay), Safety practices in LT/HT systems
10. **Basic Workshop / Practical Knowledge**
Tools & equipment, Wiring basics, PCB / circuit assembly basics
11. **Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).**

Supervisor (Electrical)

1. **Basic Electrical Circuits**
DC circuits: Ohm's Law, Kirchhoff's Laws, Series & parallel circuits analysis, Electrical power and energy concepts, Electromagnetism basics: Faraday's Law, Lenz's Law, Inductance: self & mutual
2. **AC Circuits & Three-Phase Systems**
Sinusoidal waveform, RMS & average values, Phasor representation, R, L, C and RLC circuit analysis, Power: real, reactive, apparent, power factor, Three-phase systems: star & delta connections, Two-wattmeter method
3. **Electrical Machines – I (Transformers)**
Construction & working of transformers, EMF equation, Losses & efficiency, Voltage regulation, Applications in power systems
4. **Electrical Machines – II (DC & AC Machines)**
DC generators & motors: working, EMF, torque, Types of DC motors & characteristics, Induction motors: principle & operation, Synchronous machines basics
5. **Network Analysis**
Circuit laws and theorems (Thevenin, Norton, Superposition), Mesh & nodal analysis, Transient analysis of RL, RC circuits, Laplace transform basics
6. **Analog & Digital Electronics**
Diodes, rectifiers, filters, Transistors and amplifiers, Logic gates, combinational & sequential circuits, Flip-flops and registers
7. **Control Systems**
Open loop vs closed loop systems, Transfer functions, Block diagram reduction, Stability analysis (Routh criterion), Basic controllers (P, PI, PID)
8. **Power Electronics**
Power semiconductor devices (SCR, MOSFET, IGBT), Controlled rectifiers, Inverters and choppers, Applications in motor drives
9. **Power Systems**
Generation, transmission, and distribution, Transmission line parameters, Load flow basics, Power system protection (relays, circuit breakers), Fault analysis basics
10. **Measurements & Electrical Safety**
Measuring instruments (ammeter, voltmeter, wattmeter), Measurement errors and calibration, Earthing and grounding, Electrical hazards and safety standards, Maintenance practices
11. **Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).**

Syllabus for Supervisor (Electronics Engineering)

1. **Electronic Devices**
Semiconductor physics: intrinsic & extrinsic materials, PN junction diode: characteristics, rectifiers, Zener diode and voltage regulation, Bipolar Junction Transistor (BJT): configurations, biasing, Field Effect Transistors (FET, MOSFET), Applications in switching and amplification
2. **Digital System Design**
Number systems and binary codes, Boolean algebra and logic simplification, Logic gates and combinational circuits, Multiplexers, decoders, Sequential circuits: flip-flops, registers, counters, Introduction to programmable logic devices
3. **Signals and Systems**
Classification of signals (continuous/discrete), System properties (linearity, time-invariance), Convolution and system response, Fourier series and transforms, Laplace transform and applications, Sampling theorem basics

4. **Network Theory**
Basic circuit laws (KCL, KVL), Network theorems (Thevenin, Norton, Superposition), Transient analysis of RL, RC, RLC circuits, AC circuit analysis using phasors, Resonance in circuits, Two-port network parameters
5. **Probability & Stochastic Processes**
Probability basics and random variables, Probability distributions (Binomial, Poisson, Gaussian), Expectation and variance, Random processes and classification, Stationary processes, Noise analysis in communication systems
6. **Analog Circuits**
Amplifiers: small signal analysis, Frequency response of amplifiers, Feedback in amplifiers, Oscillators (RC, LC, Crystal), Power amplifiers, Operational amplifiers and applications
7. **Microcontrollers**
Architecture of microcontrollers (e.g., 8051/AVR), Instruction set and programming basics, Interfacing with I/O devices, Timers and counters, Interrupts and serial communication, Applications in automation systems
8. **Analog and Digital Communication**
Communication system basics, Amplitude modulation (AM), Frequency modulation (FM), Digital communication basics (PCM, ASK, FSK), Noise and signal-to-noise ratio, Multiplexing techniques, Introduction to wireless communication
9. **Numerical Techniques**
Errors and approximations, Solutions of linear equations, Numerical differentiation & integration, Interpolation methods, Root finding techniques (Newton-Raphson), Applications in circuit analysis
10. **Practical & Project Work (Supervisor-Oriented)**
Electronic devices lab experiments, Digital circuit implementation, Microcontroller programming tasks, Communication system simulations, Fault diagnosis and maintenance, Mini project (e.g., automation system, sensor-based control)
11. **Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).**

Syllabus for Supervisor (Instrumentation)

1. **Basics of Electrical & Electronics Engineering**
Electrical quantities: Voltage, Current, Resistance, Power, Ohm's Law, Kirchhoff's Laws (KCL, KVL), AC & DC fundamentals, Basic components: Resistor, Capacitor, Inductor, Introduction to transformers and motors
2. **Electronic Components & Devices**
Semiconductor basics, Diodes (PN junction, Zener, Rectifiers), Transistors (BJT, FET basics), Operational Amplifiers (Op-amps basics), Sensors interface basics
3. **Digital Electronics**
Number systems (Binary, Octal, Hexadecimal), Logic gates and Boolean algebra, Combinational circuits (Adders, Multiplexers), Sequential circuits (Flip-flops, Counters), Memory devices
4. **Engineering Mathematics for Instrumentation**
Matrices & determinants (system solving), Trigonometry (signal representation), Differential calculus (rate of change), Integral calculus (area, system modeling)
5. **Measurement & Instrumentation Fundamentals**
Measurement systems and standards, Static & dynamic characteristics, Errors in measurement, Calibration techniques, Types of instruments (Analog & Digital)
6. **Sensors & Transducers**
Classification of transducers, Temperature sensors (RTD, Thermocouple), Pressure, Flow, Level sensors, Displacement and proximity sensors, Smart sensors
7. **Industrial Instrumentation**
Flow measurement (Orifice, Venturi), Pressure measurement devices, Level measurement techniques, Temperature measurement systems, Signal conditioning
8. **Control Systems**
Open-loop & closed-loop systems, Transfer functions, Block diagram representation, PID controllers, Stability analysis
9. **PLC & Industrial Automation**
Basics of PLC (Programmable Logic Controller), Ladder programming, Input/output modules, SCADA basics, Industrial automation applications
10. **Maintenance & Safety in Instrumentation**
Preventive and predictive maintenance, Troubleshooting techniques, Industrial safety standards, Hazard identification, Documentation & reporting
11. **Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).**

Syllabus for Supervisor (IT)

1. **Programming for Problem Solving**
Introduction to Programming Concepts, Algorithms and Flowcharts, Basics of C/Python Programming, Data Types, Variables, Operators, Control Structures (if, loop, switch), Functions and Recursion, Arrays and Strings, File Handling, Debugging and Error Handling
2. **Data Structures and Algorithms**
Introduction to Data Structures, Arrays, Linked Lists, Stacks and Queues, Trees (Binary Tree, BST), Graphs (Basics, Traversal), Searching Techniques (Linear, Binary), Sorting Algorithms (Bubble, Merge, Quick), Algorithm Complexity (Time & Space Analysis)
3. **Discrete Mathematics**
Logic and Propositional Calculus, Sets, Relations, Functions, Boolean Algebra, Combinatorics, Graph Theory, Recurrence Relations
4. **Computer Organization & Architecture**
Basic Computer Organization, CPU Architecture, Instruction Set & Execution Cycle, Memory Hierarchy (Cache, RAM), Input/Output Organization, Number Systems & Arithmetic
5. **Operating Systems**
Introduction to Operating Systems, Process Management & Scheduling, Threads and Concurrency, Deadlocks, Memory Management (Paging, Segmentation), File Systems, Security & Protection
6. **Database Management Systems**
Introduction to DBMS, Data Models and ER Diagrams, Relational Model, SQL Queries (DDL, DML), Normalization, Transactions & Concurrency Control, Database Security
7. **Computer Networks**
Network Basics and Models (OSI, TCP/IP), Transmission Media, Data Link Layer, Network Layer (Routing, IP Addressing), Transport Layer (TCP/UDP), Application Layer Protocols (HTTP, FTP, DNS), Network Security Basics
8. **Design and Analysis of Algorithms**
Algorithm Design Techniques, Divide and Conquer, Greedy Algorithms, Dynamic Programming, Backtracking, Complexity Analysis (Big-O, Ω , Θ), NP-Completeness (Basics)
9. **Machine Learning (Basic Level)**
Introduction to Machine Learning, Types of Learning (Supervised, Unsupervised), Regression Techniques, Classification Algorithms, Clustering (K-means), Model Evaluation, Applications of ML
10. **Cyber Security**
Introduction to Cyber Security, Types of Cyber Threats, Cryptography Basics, Network Security, Authentication & Authorization, Malware & Attacks, Security Policies & Practices

Syllabus for Supervisor (Mechanical and Air Condition)

1. **Engineering Mathematics & Basic Science**
Basic algebra, equations, statistics, Basic physics (heat, energy, electricity basics)
2. **Engineering Drawing & Basics**
Reading drawings, Symbols, dimensions, Basic machine drawings
3. **Workshop & Manufacturing Technology**
Carpentry, fitting, welding, Sheet metal, machining basics, Fabrication processes
4. **Thermodynamics**
Heat, work, energy, Laws of thermodynamics, Basic cycles (Carnot, refrigeration cycle)
5. **Heat Transfer**
Conduction, convection, radiation, Heat exchangers (basic idea)
6. **Fluid Mechanics**
Pressure, flow, viscosity, Reynolds number, friction loss, Pipe flow basics
7. **Refrigeration & Air Conditioning Basics**
Vapour compression system, Vapour absorption system, Psychrometry & comfort conditions
8. **Mechanical Components & Systems**
Compressors, pumps, Valves, pipes, fittings, Basic machine elements
9. **Installation, Maintenance & Troubleshooting**
RAC installation basics, Fault finding (electrical + mechanical), Leak detection, servicing
10. **Industrial Safety & Process Planning**
Safety standards & PPE, Electrical & mechanical safety, Basics of costing & planning
11. **Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).**

Syllabus for Supervisor (Mechanical)

- 1: **Engineering Materials & Applications**
Classification of engineering materials (metals, polymers, ceramics, composites), Crystal structure and defects, Mechanical properties (strength, hardness, toughness, ductility), Heat treatment processes (annealing, quenching, tempering), Corrosion and prevention methods, Material selection for industrial components
- 2: **Mechanics of Deformable Solids**
Stress and strain concepts, Hooke's law and elastic constants, Axial loading and deformation, Torsion of shafts, Bending stresses in beams, Shear force and bending moment diagrams, Failure theories (basic concept)
- 3: **Fluid Mechanics & Hydraulic Machines**
Fluid properties and statics, Pressure measurement devices, Fluid kinematics and dynamics, Bernoulli's equation and applications, Flow through pipes and losses, Pumps (centrifugal, reciprocating), Hydraulic turbines
- 4: **Heat Transfer & Thermal Machines**
Modes of heat transfer (conduction, convection, radiation), Heat exchangers (types and applications), Steam generation and boilers, Rankine cycle basics, IC engines (working principles), Performance parameters
- 5: **Kinematics & Dynamics of Machines**
Mechanisms and kinematic pairs, Velocity and acceleration analysis, Gear mechanisms and gear trains, Flywheel and governors, Balancing of rotating masses, Vibrations (basic concept)
- 6: **Manufacturing Processes**
Casting processes and defects, Metal forming (rolling, forging, extrusion), Machining processes (lathe, drilling, milling), Welding and joining processes, Non-traditional machining (EDM, laser), Surface finishing
- 7: **Machine Elements & System Design**
Design principles and factor of safety, Design of shafts, keys, and couplings, Bearings (types and selection), Springs design, Gears and belt drives, Failure analysis basics
- 8: **Measurements & Metrology**
Measurement systems and errors, Linear and angular measurement, Vernier, micrometer, gauges, Surface roughness measurement, Limits, fits, and tolerances, Calibration and standards
- 9: **Mechatronics, Robotics & Control**
Basics of sensors and actuators, PLC fundamentals, Control systems (open and closed loop), Robotics basics (types, applications), Industrial automation concepts
- 10: **Production & Operation Management**
Production planning and control, Inventory management, Quality control techniques, Work study and time study, Maintenance management, Lean manufacturing basics
- 11: **Basic knowledge of computer and its application i.e. MS office (Word, Excel, PPT etc.).**

Junior Technician (Mechanic & Air conditioning)

1. **Workshop Safety & Practices**
PPE, hazard identification, Fire safety, electrical safety, Industrial safety basics
2. **Basic Engineering Drawing**
Reading job drawings, Orthographic & isometric views, Symbols and dimensioning
3. **Workshop Calculation & Science**
Units, measurements, Heat, pressure, work, power, Basic maths (ratio, % , area, volume)
4. **Basic Fitting & Fabrication**
Marking, cutting, drilling, tapping, Filing, grinding, Basic assembly work.
5. **Welding & Joining Processes**
Arc welding basics, Gas welding & cutting, Pipe joints & fittings
6. **Mechanical Systems & Power Transmission**
Bearings, gears, belts, pulleys, Lubrication & cooling systems, Machine components
7. **Hydraulics & Pneumatics**
Basic principles (Pascal law), Components (valves, compressors, actuators), Simple circuits
8. **Basic Electrical & Controls**
Motors (AC/DC), Basic circuits & components, Sensors & simple control systems
9. **Refrigeration & Air Conditioning Basics**
Vapour compression cycle, Refrigerants & properties, Psychrometry & heat load basics
10. **Installation, Maintenance & Troubleshooting**
Preventive maintenance, Fault diagnosis (mechanical + RAC systems), Pumps, compressors, AC systems

Junior Technician (Electrical/Electronics)

- 1. Safety, Tools & Workshop Practice**
PPE, electrical safety, first aid, fire safety, Identification & use of hand tools, Workshop practices (fitting, drilling, wiring basics).
- 2. Basic Electricity**
Current, voltage, resistance, power, AC & DC fundamentals, Series & parallel circuits, Ohm's Law and simple calculations
- 3. Electrical Wiring & Cables**
Types of wires, cables, connectors, Cable joints, termination, crimping, Earthing basics
- 4. Electrical & Electronic Components**
Passive components (R, L, C), Active components (diode, transistor), Identification, testing, applications
- 5. Measuring Instruments**
Use of multimeter, voltmeter, ammeter, Measurement of voltage, current, resistance, Basic calibration
- 6. Basic Electronics**
Diodes, rectifiers, power supplies, Transistors & simple amplifier concepts, Introduction to ICs
- 7. Electrical Machines & Devices (Basic)**
Motors, transformers (basic idea), Relays, circuit breakers, Electrical protection devices
- 8. Engineering Drawing**
Electrical/electronic symbols, Wiring diagrams & circuit diagrams, Reading layouts and schematics
- 9. Workshop Calculation & Science**
Basic math (algebra, percentage, ratio), Units & measurements (SI units), Basic physics (heat, electricity concepts)
- 10. Troubleshooting & Maintenance**
Fault finding in circuits, Testing & repair basics, Preventive maintenance

Junior Technician (Air Conditioning)

- 1. Safety, Tools & Introduction to RAC**
Introduction to Refrigeration & Air Conditioning industry, Scope and job role of technician, General workshop safety, electrical safety, PPE, Fire safety and first aid basics, Classification of tools and equipment used in RAC, Care, maintenance, and handling of tools
- 2. Basic Thermodynamics & Refrigeration Principles**
Concepts of heat, temperature, pressure, work, and energy, Units and measurement systems, Sensible heat, latent heat, superheating, subcooling, Laws of thermodynamics (basic understanding), Refrigeration cycle (Vapour Compression Cycle), Coefficient of Performance (COP) and Ton of Refrigeration, Vapour Absorption Refrigeration System (VARS) – basics
- 3. Electrical Fundamentals for RAC**
Basic electrical quantities: voltage, current, resistance, power, AC and DC supply concepts, Series and parallel circuits, Earthing and insulation, Electrical measuring instruments, Single-phase and three-phase systems (concept only), Basics of motors used in refrigeration
- 4. Electronics Fundamentals**
Introduction to semiconductor devices, Diodes, transistors, capacitors, resistors, Rectifiers (half-wave, full-wave, bridge), Voltage regulation (Zener diode), Basics of integrated circuits (ICs), Applications of electronics in RAC systems
- 5. Refrigeration System Components**
Compressor: types, construction, working (reciprocating, rotary, scroll, inverter), Condenser: air-cooled and water-cooled, Evaporator: types and functions, Expansion devices: capillary tube, thermostatic expansion valve, Refrigerants: types, properties, environmental impact (CFC, HFC alternatives), Lubricants and insulation materials
- 6. Domestic Refrigerators**
Construction and working of direct cool refrigerator, Frost-free refrigerator system, Air circulation and defrosting system, Electrical and mechanical components, Inverter technology refrigerators (concept), Common faults and theory of troubleshooting
- 7. Air Conditioning Systems**
Window air conditioner – construction & working, Split air conditioner – types and working, Inverter AC technology (concept), Package air conditioner basics, Car air conditioning system (basic concept), Comparison of different AC systems
- 8. Commercial Refrigeration Systems**
Water coolers, bottle coolers, deep freezers
Ice plant, cold storage, walk-in coolers
Ice cube machine and ice candy plant
Refrigeration load concept (basic)
Applications in industry and commercial use

9. **HVAC Systems & Advanced Air Conditioning**
Psychrometry: DBT, WBT, RH, air properties, Psychrometric chart (concept and interpretation), Air distribution systems and duct design basics, Fans, blowers, filters, and dampers, Central air conditioning systems, VRF/VRV systems (basic understanding), Chilled water systems (concept)
10. **Workshop Calculation & Science**
Basic arithmetic: fractions, decimals, percentages, Algebra: simple equations, Geometry: area, volume (related to ducts, pipes, tanks), Units and conversions (SI system), Density, pressure, force calculations, Heat calculations (basic heat load concepts), Graphs and basic data interpretation, Applied science in RAC (thermal properties, fluid basics)

Junior Technician (Electrician)

- 1: **Safety Practices & Workshop Discipline**
Electrical safety rules, PPE, hazards, Fire safety & extinguishers, First aid & electric shock treatment, Workshop discipline and housekeeping, Identification & safe use of tools
- 2: **Engineering Drawing for Electricians**
Drawing instruments and their uses, Types of lines, lettering, dimensioning, Geometrical constructions, Orthographic projection (1st & 3rd angle), Isometric views, Electrical symbols and wiring diagrams, Reading schematic and layout diagrams
- 3: **Workshop Calculation & Science**
Units, measurements, SI system, Basic arithmetic (fractions, ratio, percentage), Algebra basics and simple equations, Mensuration (area, volume, weight), Density, force, work, power, energy, Heat and temperature basics, Basics of electricity (scientific concepts)
- 4: **Electrical Fundamentals & Circuit Laws**
Voltage, current, resistance, Ohm's Law and Kirchhoff's Laws, Series and parallel circuits, Power and energy calculations, AC fundamentals and waveform, Power factor and 3-phase basics
- 5: **Wiring, Cables & Installation**
Types of wires and cables, Wire joints and termination methods, Domestic wiring systems, Conduit wiring installation, Switches, sockets, MCB, ELCB installation, Testing and fault finding
- 6: **Electrical Measurements & Instruments**
Measuring instruments (analog & digital), Ammeter, voltmeter, wattmeter, Multimeter and clamp meter, Energy meter (single & three phase), Measurement errors and calibration
- 7: **Earthing, Protection & Illumination**
Types and methods of earthing, Earth resistance testing, Protective devices (fuse, relay, MCB, RCCB), Types of lamps and lighting systems, Illumination calculation and layout
- 8: **Transformers & Static Machines**
Working principle of transformers, Types and applications, Losses, efficiency and regulation, Transformer testing, Basic winding techniques
- 9: **Electrical Machines (DC & AC)**
DC machines (generator & motor), Induction motors (1-phase & 3-phase), Motor starters (DOL, star-delta), Speed control methods, Alternators and synchronization
- 10: **Electronics, Renewable Energy & Modern Applications**
Basic electronic components (diode, transistor, SCR), Rectifiers and inverters, UPS and stabilizers, Solar energy systems, Electric vehicles and charging systems, Smart grid basics

Junior Technician (Electrician)

- 1: **Safety Practices & Workshop Discipline**
Electrical safety rules, PPE, hazards, Fire safety & extinguishers, First aid & electric shock treatment, Workshop discipline and housekeeping, Identification & safe use of tools
- 2: **Engineering Drawing for Electricians**
Drawing instruments and their uses, Types of lines, lettering, dimensioning, Geometrical constructions, Orthographic projection (1st & 3rd angle), Isometric views, Electrical symbols and wiring diagrams, Reading schematic and layout diagrams
- 3: **Workshop Calculation & Science**
Units, measurements, SI system, Basic arithmetic (fractions, ratio, percentage), Algebra basics and simple equations, Mensuration (area, volume, weight), Density, force, work, power, energy, Heat and temperature basics, Basics of electricity (scientific concepts)
- 4: **Electrical Fundamentals & Circuit Laws**
Voltage, current, resistance, Ohm's Law and Kirchhoff's Laws, Series and parallel circuits, Power and energy calculations, AC fundamentals and waveform, Power factor and 3-phase basics
- 5: **Wiring, Cables & Installation**
Types of wires and cables, Wire joints and termination methods, Domestic wiring systems, Conduit wiring installation, Switches, sockets, MCB, ELCB installation, Testing and fault finding

- 6: **Electrical Measurements & Instruments**
Measuring instruments (analog & digital), Ammeter, voltmeter, wattmeter, Multimeter and clamp meter, Energy meter (single & three phase), Measurement errors and calibration
- 7: **Earthing, Protection & Illumination**
Types and methods of earthing, Earth resistance testing, Protective devices (fuse, relay, MCB, RCCB), Types of lamps and lighting systems, Illumination calculation and layout
- 8: **Transformers & Static Machines**
Working principle of transformers, Types and applications, Losses, efficiency and regulation, Transformer testing, Basic winding techniques
- 9: **Electrical Machines (DC & AC)**
DC machines (generator & motor), Induction motors (1-phase & 3-phase), Motor starters (DOL, star-delta), Speed control methods, Alternators and synchronization
- 10: **Electronics, Renewable Energy & Modern Applications**
Basic electronic components (diode, transistor, SCR), Rectifiers and inverters, UPS and stabilizers, Solar energy systems, Electric vehicles and charging systems, Smart grid basics

Junior Technician (Fitter)

- 1. **Safety, Workshop Practices & 5S System**
Importance of safety in engineering workshops, Personal Protective Equipment (PPE) and its usage, Occupational Safety, Health & Environment (OSHE) guidelines, Fire safety: types of fire extinguishers and applications, First aid and emergency response procedures, Hazard identification and risk prevention, Electrical safety precautions, 5S concept: Sort, Set in order, Shine, Standardize, Sustain, Housekeeping and waste disposal methods
- 2. **Engineering Materials & Metallurgy**
Classification of engineering materials, Properties of metals: Physical (density, conductivity, etc.), Mechanical (strength, hardness, ductility, toughness), Ferrous materials: Pig iron, cast iron, wrought iron, steel, Non-ferrous materials: Copper, aluminium, zinc, tin, alloys, Heat treatment processes: Annealing, hardening, tempering, Corrosion and prevention methods, Surface coating techniques
- 3. **Measuring Instruments & Metrology**
Importance of measurement and accuracy, Linear and angular measurement systems, Measuring instruments: Steel rule, calipers, micrometer, vernier caliper, Vernier height gauge, bevel protractor, Gauges: Plug gauge, snap gauge, feeler gauge, Limits, fits and tolerances, Interchangeability concept, Errors in measurement and calibration, Surface finish and inspection methods
- 4. **Basic Fitting Theory**
Principles of fitting work, Marking and layout techniques, Cutting tools and their theory: Hacksaw, chisel, file, Filing theory: Types of files, grades, cuts, Drilling theory: Types of drills and machines, Threading: Internal and external threads, Fasteners: Bolts, nuts, screws, rivets, Accuracy and tolerance in fitting
- 5. **Sheet Metal & Joining Processes**
Types of sheet metals and their properties, Sheet metal operations: Bending, cutting, forming, Development of simple shapes, Joints in sheet metal: Seam, lap, locked joints, Soldering: Types, fluxes, applications, Brazing process and advantages, Riveting: Types of rivets and joints, Applications in fabrication
- 6. **Welding Technology**
Principles of welding, Types of welding: Arc welding, Gas welding (Oxy-acetylene), Welding equipment and accessories, Welding electrodes and selection, Welding defects and remedies, Safety precautions in welding, Types of joints: Butt, fillet, corner joints, Basic knowledge of modern welding methods
- 7. **Machine Tools & Lathe Theory**
Introduction to machine tools, Lathe machine: Construction and parts, Working principles, Types of lathe operations: Turning, facing, taper turning, threading, Cutting tools: Types and tool geometry, Cutting parameters: Speed, feed, depth of cut, Lubrication and maintenance, Other machines: Drilling, grinding, shaping
- 8. **Fits, Assembly & Surface Finishing**
Types of fits: Clearance, interference, transition, Assembly principles and methods, Surface finishing techniques: Scraping, lapping, honing, Fastening methods: Keys, cotters, pins, Alignment and balancing, Tolerance control in assembly, Inspection of assembled components
- 9. **Power Transmission, Maintenance & Fluid Systems**
Power transmission elements: Belt drives, gears, pulleys, shafts, Types of gears and their applications, Bearings: Types and lubrication, Preventive maintenance concepts, Fault diagnosis and troubleshooting, Basics of pneumatics: Compressors, valves, actuators, Basics of hydraulics: Pumps, circuits, applications, Industrial applications
- 10. **Workshop Calculation & Science**
Units, measurements and conversions (SI system), Basic mathematics: Fractions, decimals, percentages, Geometry: Area, volume, angles, Trigonometry (basic applications in workshop), Algebra (simple equations), Physics concepts: Force, work, power, energy, Friction and motion, Heat and temperature, Pressure and fluid mechanics basics, Material science basics (stress, strain), Application of science in fitting work.

Junior Technician (Electronics / Instrumentation)

1. **Safety, Tools & Workshop Practice**
PPE, electrical safety, first aid, Hand tools, soldering, wiring, Basic workshop practices
2. **Basic Electrical Engineering**
AC/DC fundamentals, Voltage, current, resistance, Ohm's law, power, energy, Series & parallel circuits
3. **Electronic Components & Devices**
Passive: Resistor, Capacitor, Inductor, Active: Diode, Transistor, Identification & testing
4. **Analog Electronics**
Rectifiers, power supply, Amplifiers (basic), Op-amp basics
5. **Digital Electronics**
Logic gates, flip-flops, Counters, registers, Basic digital circuits
6. **Measuring Instruments & Electrical Measurement**
Ammeter, voltmeter, wattmeter, Multimeter usage, Measurement techniques
7. **Sensors & Transducers**
Temperature (RTD, Thermocouple), Pressure, level, proximity sensors, Signal conversion basics
8. **Calibration & Troubleshooting**
Instrument calibration basics, Fault finding in circuits, Maintenance practices
9. **Engineering Drawing & Circuit Reading**
Symbols & diagrams, Wiring diagrams, Block diagrams
10. **Basic Control Systems & Applications**
ON/OFF control, Simple automation systems, Industrial applications (level, temp control)

Junior Technician (Mechanic Tool)

1. **Safety, Workshop Practices & Industrial Environment**
Importance of safety in machine tool operations, Personal Protective Equipment (PPE) and safety symbols, Fire safety, first aid, and emergency procedures, Hazard identification and risk prevention, 5S concept and housekeeping practices, Occupational Safety & Health (OSH) standards, Environmental protection and waste disposal.
2. **Engineering Materials, Tools & Measuring Instruments**
Types and properties of engineering materials (ferrous & non-ferrous), Cutting tools: classification and applications, Hand tools: hammers, chisels, files, drills, taps, dies
Measuring instruments: Steel rule, Vernier caliper, micrometer, Dial gauge, feeler gauge, bevel protractor
Limits, fits, and tolerances (basic concept), Surface finish and measurement
3. **Basic Fitting & Assembly Principles**
Principles of fitting operations, Types of fits: Clearance, interference, transition fits, Interchangeability concept, Assembly techniques and sequence, Fasteners: Nuts, bolts, screws, washers, rivets, Keys and keyways, Torque and tightening methods
4. **Machine Tools: Construction & Working Principles**
Classification of machine tools
Construction and working of: Lathe machine, Shaper machine, Milling machine, Drilling machine, Grinding machine
Machine tool specifications and applications
Cutting parameters: Speed, feed, depth of cut
5. **Heat Treatment & Surface Finishing**
Heat treatment processes: Hardening, tempering, annealing, normalizing, Case hardening
Iron-carbon equilibrium concept
Surface finishing methods: Lapping, honing, scraping
Importance of surface finish in machine parts
6. **Mechanical Power Transmission Systems**
Types of power transmission: Belt, chain, gear drives
Gear types and terminology, Gear trains and applications
Couplings and clutches: Types and functions
Bearings: Types (ball, roller, plain), Mounting and lubrication
Brakes and braking mechanisms
7. **Lubrication, Cooling & Maintenance Systems**
Importance of lubrication Types of lubricants (oil & grease)
Lubrication systems: Centralized and manual
Coolants: Types and properties
Cooling systems in machine tools
Maintenance types: Preventive, predictive, breakdown maintenance
Maintenance planning and documentation

8. **Hydraulics & Pneumatics**
Basic principles of hydraulics and pneumatics
Components: Pumps, compressors, valves, actuators
Hydraulic circuits and symbols, Pneumatic circuits and control systems, Advantages and industrial applications, Fluid power system safety
9. **Electrical, Electronics & PLC Basics**
Basic electrical concepts: AC/DC, voltage, current, resistance
Electrical components: Motors, relays, transformers
Electronic components: Diodes, transistors, capacitors, ICs
Sensors: Proximity, ultrasonic
Introduction to PLC: Basic programming concept, Industrial automation overview
10. **Workshop Calculation & Science**
Units and measurements, Fractions, decimals, percentages, Ratio and proportion, Basic algebra
Geometry: Area, volume of common shapes
Trigonometry basics, Cutting speed, feed and machining time calculations
Basic physics: Force, work, power, energy
Heat and temperature, Friction and lubrication principles, Simple machines, Properties of materials, Basic electricity principles

Junior Technician (Mechanic Machine Tool Maintenance /Fitter)

1. **Safety & Industrial Practices**
PPE, first aid, fire safety, Hazard identification, 5S & housekeeping, Electrical safety basics
2. **Basic Fitting Operations**
Marking, measuring, filing, sawing, Drilling, tapping, reaming, Grinding basics, Tolerances & fits
3. **Engineering Drawing**
Reading drawings (2D/3D), Orthographic & isometric views, Dimensioning & symbols, Interpretation of machine drawings
4. **Workshop Calculation & Science**
Units, measurement, SI system, Basic math (ratio, percentage, geometry), Physics basics (force, work, power), Friction, centre of gravity
5. **Machine Tools Fundamentals**
Lathe, drilling, milling, grinding machines, Basic operations on machines, Machine parts & functions
6. **Maintenance of Machines**
Preventive maintenance, Breakdown maintenance, Lubrication systems, Inspection & checklist preparation
7. **Assembly & Fitting Techniques**
Fasteners (nuts, bolts, screws), Assembly & dismantling, Alignment & levelling, Machine erection basics
8. **Hydraulics & Pneumatics**
Basic components (pump, valves, actuators), Circuit basics, Applications in machines
9. **Welding & Fabrication Basics**
Arc welding & gas welding, Types of joints, Safety precautions, Basic cutting operations
10. **Engineering Materials & Heat Treatment**
Ferrous & non-ferrous metals, Properties of materials, Heat treatment processes, Bearings & lubrication basics

BANK NOTE PRESS : DEWAS (MP)
(A Unit of SPMCIL)

Sub :- Duties and Responsibilities of A-2, S-1 Level and W-1 Level induction post

Name of post and Level	Duties and responsibilities *
Welfare Officer A-2 Level	<ul style="list-style-type: none"> • To establish contacts and hold consultations with a view to maintaining harmonious relations between the Management and the Workers; • To take up with the Factory Management the grievances of workers, individual as well as collective, with view to securing their redress and to act as a liaison officer between the Management and Labour; • To help the factory management in determining its labour policies and to interpret them to the workers in Hindi; • to watch employment relations with a view to using his influence in the event of an industrial dispute arising between the Management and Workers and to assist in bringing about a settlement by persuasive efforts; • To advise on fulfillment by the management and the concerned departments of the factory of their obligations, statutory or otherwise concerning regulation of working hours, maternity benefits, medical care, compensation for injuries and sickness and other welfare and social benefit measures;] <ul style="list-style-type: none"> ○ [(v-a) to advise and assist the management in the fulfillment of its obligations statutory ○ or otherwise concerning prevention of personal injuries and maintaining a safe work ○ environment, in such factories where a Safety Officer is not required to be appointed ○ under enabling provision under Section 40-B;] • To advise on fulfillment by the concerned departments of factory of obligations, statutory or otherwise, with regard to the provisions of the Factories Act and rules made thereunder, and to establish a liaison with Factory Inspectors and Medical Service concerning medical examinations of employees, health, record, supervision of hazardous jobs, sick visiting and convalescence, accident prevention and supervision of Safety Committee, systematic plant inspection, safety education, investigation of accidents and administration of Workmen's Compensation; • To promote relations between the concerned department of the factory and workers which will bring about productive efficiency as well as amelioration in the working conditions and to help workers to adjust and adapt themselves to their working; • To encourage the formation of Joint Production Committees, Cooperative Societies, Savings Scheme [.....] Welfare Committees and to supervise their working. • To encourage provision of amenities, such as canteens, rest shelters, crèches adequate latrine facilities, drinking water supply, sickness and benevolent scheme of payments, pension and superannuation funds, gratuity payments, granting long leave and legal advice to workers; • To advice on provision of welfare facilities such as housing facilities, food, social and recreational facilities, sanitation, advise on individual personnel problem and children's education; • To advice the management on questions relating to training of learners, newcomers, apprentice, workers on transfer and promotion, instructors and supervisors, supervision and control of notice-board and information bulletins to encourage additional education; and attendance of workers at Technical Institutes; • To take measures which will serve to raise the standard of living of workers and in general promote their well-being.
Supervisor (Control) S-1 Level	<ul style="list-style-type: none"> • Responsible for performing activities defined as per SOP's. • Enforce compliance of all orders in matter of work & general conduct. • Handling of keys of sectional doors & Vaults. • Daily planning to achieve the production target & processing of Bank Notes. • Responsible for supervising & regulating sectional work & maintaining sectional accounts in SAP and respective registers/documents. • Enforce compliance of all orders in matter of work & general conduct.

	<ul style="list-style-type: none"> • Performing consignment duty as and when required. • Assisting seniors during annual physical verification & other audits. • Co-ordination with other departments for completion of their work. • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
<p>Supervisor (Ink Factory) S-1 Level</p>	<ul style="list-style-type: none"> • Planning, supervision & coordinating of ink & varnish production process, ensuring quality, safety & efficiency. • Production overseeing (Weighing, Mixing, Grinding, Canning, Varnish Cooking Plant). • Testing of raw materials, varnishes and inks. • Maintaining & calibrations of equipment, managing inventory, spares and coordinating with other departments to achieve production goals. • Supervising staff and workman. • Proper record keeping along with entries in ERP system. • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
<p>Supervisor (Mechanical / Air Conditioning) S-1 Level</p>	<ul style="list-style-type: none"> • To assist the AM (Mech./AC)/DM (Mech./AC) in all matters pertaining to the mechanical section. • To assist AM/DM (Mech./AC) for all correspondence, returns, statements and leave records etc. • To supervise the mechanical / air conditioning operation and maintenance staff and to ensure that the staff are aware of safe working methods and follow these procedures. • To plan and execute the maintenance schedule as laid down and also any unscheduled maintenance work due to breakdown or otherwise. • Responsible for distributing day to day work to the staff and for keeping the records of operation, maintenance and production works under his charge. • To programme for the purchase and upkeep of the essential spares and tools required for the operation and maintenance of equipment well in advance and to keep proper records of all the spares and tools. • To work with his own hand to instruct and train the staff working under him and in emergencies to keep the work going on in the absence of Foreman. • To attend to verification of control spoils once in a month and tools and stores as required. • To inspect the materials received. • To prepare check slips and to maintain sectional muster rolls. • To requisition creation, return of empties, unserviceable and surplus materials to the stores and preparation of gate passes. • To ensure punctuality and discipline of the employees working under him. • To conduct surprise checks in the nights during shift working. • To ensure proper upkeep of the furniture and cleanliness of the section and to maintain the dead stock register. • To conversant with the first aid procedure and the give first aid in case necessary. • To maintain job cards and book expenditure accordingly. • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
<p>Supervisor (Electrical / Electronics) S-1 Level</p>	<ul style="list-style-type: none"> • He shall assist the Assistant Manager (Electrical/Electronics) in all matters pertaining to Electrical and Electronics installations etc. • To assist the AM (Electrical/Electronics) for all correspondence, returns and statements etc. • To supervise the electrical operation and maintenance staff and to ensure that the staff are aware of the procedure of 'Safe Working' on electrical lines and follow these procedures. • To plan and execute the maintenance schedule as laid down and also any unscheduled maintenance work due to breakdown or otherwise. • Responsible for distributing day to day work to the staff and for keeping the records of operation and maintenance work under his charge. • To programme for the purchase, and up-keep of the essential spares and tools required for the operation and maintenance of equipment well in advance and to keep proper records of all the spares and tools. • To work with his own hands to instruct and train the staff working under him and in emergencies to keep the work going on even in the absence of Technician/ Operator. • To attend to verification of control spoils once in month and tools and stores as required. • To inspect the materials received. • To maintain attendance of his subordinate of section. • To requisition drawl, return of empties, unserviceable and surplus materials to stores and preparation of gate passes. • To conduct surprise checks in the nights during shift working.

	<ul style="list-style-type: none"> • To ensure punctuality and discipline of the employees working under him. • To ensure proper upkeep of the furniture and maintain dead stock register. • To be conversant with the first aid procedure and to give first aid in case necessary. • In addition to carry out any other work assigned to him by his superiors from time to time. • To maintain the SAP /ERP with in the plant maintenance module. • To maintain the Department procedure (Documents regarding certification of ISO – Quality / Environment /Energy management /Occupational health and Safety) • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
Junior Technician (Printing) W-1 Level	<ul style="list-style-type: none"> • Should have basic knowledge about paper, ink and printing machines,. • Should work on inking unit and maintain proper ink flow during production. • Have to clean plates, blankets, cylinders, rollers and maintain cleanliness at machine surroundings. • Have to pile up the paper at feeder and maintain the delivery unit of the machine. • Should fulfill all the requirements of machine during production and maintenance. • Should also work on feeder unit, inking unit, printing unit and delivery unit. • Should work individual or in a crew during production or in maintenance of machine. • Responsible for physical movement of all the materials (security, non-security & consumables) for routine work of section with help of trolley. • Should be in discipline, punctual and must have dedication towards his work. • The post will be an industrial workmen cadre post on shop floor. • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
Junior Technician (Control) W-1 Level	<ul style="list-style-type: none"> • Open the sectional doors / strong room doors as soon as they are unlocked. • Responsible for physical movement of all the materials (security, non-security & consumables) for routine work of section with help of trolley. • Counting & piling of trial / un-printed & printed paper manually or on machine. • Posting on printing & finishing machines (Offset, Intaglio, Numbering, Cutpack machine) as counter / mazdoor. • Colour examination (print quality) of printed sheets / examination of spoil notes. • Packing of boxes, weighing, stencil and shifting of wooden boxes. • Close strong room / sectional doors after the work is over / at shift end. • To be deputed in Day or Night shifts based on sectional requirement. • They will be transferrable to any control/printing section within the unit. • The post will be an industrial workmen cadre post on shop floor. • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
Junior Technician (Ink Factory) W-1 Level	<ul style="list-style-type: none"> • Handling of raw materials & chemicals used for manufacturing of printing inks adhering to laid down SOPs and safety guidelines. • To perform testing of raw materials & inks. • Proper record keeping of the test & operation performed. • Ink mixing, grinding & batch preparation. • Quality control, testing of raw materials & inks. • Work area compliances and Safety compliances • Material movement and cleaning of all machines and equipments of manufacturing process as well as Lab. • The post will be an industrial workmen cadre post on shop floor. • Following established cleaning procedures and safety protocols. • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
Junior Technician (Mechanical / Air Conditioning) W-1 Level	<ul style="list-style-type: none"> • Shall be directly responsible to the Supervisor (Mech./AC) in all the matters pertaining to his work. • To assist the Foreman/Sr. Operator/Operator/Sr. Technician/Technician for the maintenance of the works i.e. operation of the equipment, machines, steel doors and vault doors. • To do any general fitting job. • Responsible for the maintenance of machines, equipment steel doors and vault doors under his charge. • To be conversant with the safety regulations and adhere to them. • To keep the Supervisor (Mech.) informed of the condition of the machines and equipment and any unusual occurrence and attention required on the machines and equipment at all times. • To maintain the record of all the works carried out on the machines or equipment under his charge. • To take proper care of spares, tools and instruments issued to him. • To draw the materials required for the section from the stores and to transport

	<p>heavy materials.</p> <ul style="list-style-type: none"> • To attend to any emergency maintenance work as and when required. • To clean the machines and equipment under his charge as and when required. • Observation and recording of readings in the areas posted. • To carry out duties of one grade above temporarily as and when directed to do so. • The post will be an industrial workmen cadre post on shop floor. • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
<p>Junior Technician (Electrical /Electronics) W-1 Level</p>	<ul style="list-style-type: none"> • Shall be directly report to supervisor in all the matters pertaining to his work. • To assist Technician, Sr. Technician, Operator & foreman in the maintenance and repair of electrical installation including machines. • Responsible for the safe custody of any tool or instrument given to him. • To take direction from the supervisor as and when required. • To be conversant with the safety regulations and adhere to them. • To carry out the maintenance works including cleaning of equipment as directed by his superiors. • To carry and transport maintenance related material within the Plant from one section to another. • To operate pumps, effluent treatment plant, Switch yard, LT & HT Substation Incinerator etc. as directed by his superiors. • To draw the materials required for the section from the stores. • To maintain the record of all works carried out on the equipment under his charge. • To carry out duties of one grade above temporarily as and when directed to do so. • The post will be an industrial workmen cadre post on shop floor. • Any other work as per Sectional requirement shall be assigned from time to time by the Senior's and will be posted in both day shift & night shift.
